

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD
CENTRAL VALLEY REGION

ORDER NO. R5-2005-0095

RESCINDING VARIOUS WASTE DISCHARGE REQUIREMENTS

The California Regional Water Quality Control Board, Central Valley Region, finds that the Board adopted the following Orders and Resolutions, which are no longer applicable for the reasons shown:

Order No. 5-00-217 (NPDES No. CA0084701), adopted 27 October 2000 prescribes requirements for discharge of treated groundwater from Kinder Morgan Energy Partners, L.P. (KMEP) interim remediation system at KMEP's Holt Petroleum Release Site into Trapper Slough in San Joaquin County. KMEP has ceased discharging treated wastewater to surface waters and on 19 April 2005 requested rescission of the order. Order No. 5-00-017 is no longer needed and should be rescinded.

Order No. R5-2004-0137, adopted on 15 October 2004, prescribes requirements for the Port of Stockton to dredge and deepen docks 14 –20 at its West Complex. The Port has requested a rescission of the WDRs and will submit a new Report of Waste Discharge for this project.

Order No. 98-180, adopted 11 September 1998, prescribes requirements for Tosco Corporation and UNOCAP (Discharger) for discharge of treated petroleum hydrotest water to an infiltration basin at the Coalinga Pump Station. The recycling site is in Fresno County in Section 32, T19S, R16E, MDB&M. The Discharger never initiated discharge under this permit. By letter dated 11 February 2005, the Discharger requested the Order be rescinded.

IT IS HEREBY ORDERED that the above waste discharge requirements Orders and Resolutions are rescinded.

I, THOMAS R. PINKOS, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the California Regional Water Quality Control Board, Central Valley Region, on 24 June 2005.

THOMAS R. PINKOS, Executive Officer
